

Jens Klimek

it's in the water
for three-part chorus

The words describe a potential way of microplastic and nanoplastic particles enter our body. The piece wants to draw attention to the fact that this can no longer be prevented for a long period of time.

it's in the water
in the sink
in the drain
in the brook
in the pond
in the lake
in the river
in the sea
in the haze
in the clouds
in the rain
in the puddle
in the ground
in the well
in your drink
it's in your blood

The drain pipes may be either played with drum sticks or rammed on the floor.

duration: 1:20 min.
